SKILLS

Techniques

- Tools (VS Code, GitHub)
- Web and mobile development
- Object-oriented development

Générales

- Fast learner
- Teamwork
- Adaptability
- Quality-minded

PROFIL

I am a computer science enthusiast and a fourth-year student at Epitech Nantes. Alongside developing my knowledge, my professional goal is to help move computer science forward. My interests include video games, cooking and karate.

EXPERIENCE

Student projects

Took part in various group projects during my studies: algorithms, web development, video game creation and automation.

Internship - Developer at Alphalink (Oct. – Dec. 2024)

Three-month internship focused on creating a user interface to make internal data easier to access. Designed, developed and optimized the interface in collaboration with the technical team.

Internship - Developer at Aptatio (Apr. - Aug. 2026)

Four-month internship delivering concrete projects from design through production, in collaboration with clients. Web, embedded and VR simulation projects within a team.

EDUCATION

EPITECH NANTES - CLASSES OF 2023 - 2028

Expert in Technology diploma
Expert in Software Engineering qualification

HIGH SCHOOL DIPLOMA - MATHEMATICS / COMPUTER SCIENCE, 2021

Advanced study of general scientific subjects
